

This easy guide will help you set up your iPhone or iPad to receive and send email using your new account settings.

Step 1. Locate your email settings:

- On your iPhone or iPad, open **Settings** (typically on your homescreen)
- Tap **Mail, Contacts, Calendars** (you may need to scroll down to locate this option)

Step 2. Tap on **Add Account**, then **Other**, then **Add Mail Account**

Step 3. Complete the **New Account** form. **Make sure that you enter your full email address (ex: myemail@indytel.com).**

Cancel **New Account** Next

Name John Appleseed

Email user@example.com

Password Required

Description My Email Account

Step 4. Update your **INCOMING MAIL SERVER** settings:

- Edit the **Host Name** field to: **in.indytel.com**
- Ensure the **User Name** is your *full* email address (ex: myemail@indytel.com)
- Enter your **Password**

Cancel **New Account** Next

IMAP POP

Name John Doe

Email johndoe@domain.ext

Description Doe Email

INCOMING MAIL SERVER

Host Name mail.example.com

User Name Required

Password ●●●●●●●●

OUTGOING MAIL SERVER

Host Name smtp.example.com

User Name Optional

Password Optional

Step 5. Add your **OUTGOING MAIL SERVER** settings

- **Host Name** field enter: **out.indytel.com**
- **User Name** field enter: **Your full email address (ex: myemail@indytel.com)**
- **Password** field enter: Your email password.
- Tap **Save**

Congratulations, your iPhone or iPad is now set up!
