

## INDEPENDENCE LIGHT & POWER, TELECOMMUNICATIONS HONORED WITH NATIONAL AWARDS

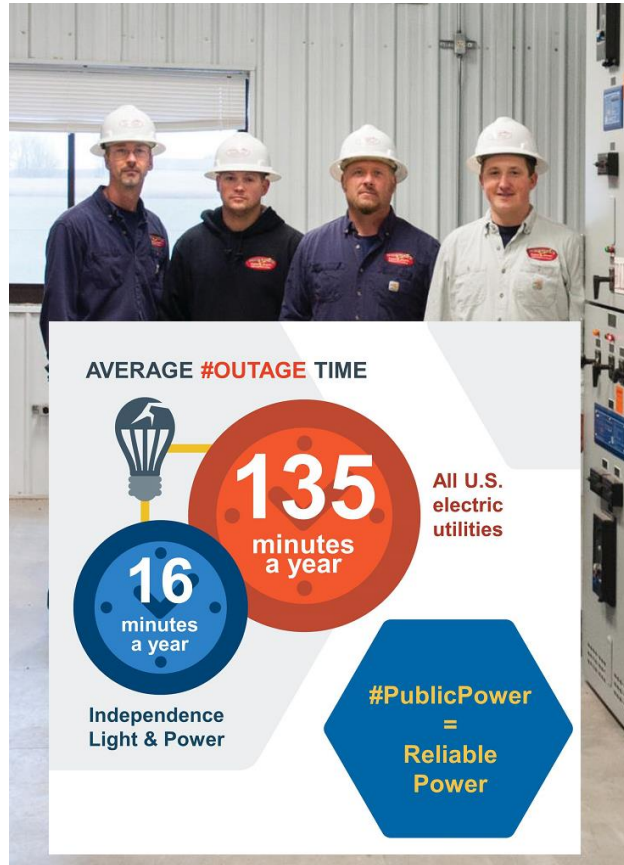

Independence Light & Power, Telecommunications has received national recognition for providing exceptional electric reliability. The recognition comes from the American Public Power Association ([www.PublicPower.org](http://www.PublicPower.org)). The Association tracks local power outage and restoration data and compares the data to national statistics tracked by the U.S. Energy Information Administration for all types of electric utilities.

“We are proud to receive this recognition. It is a testament to the hard work of all our staff to ensure that the lights stay on for all our customers,” said Kevin Sidles, General Manager. (Pictured, Tim Tudor, Ryan Christianson, Eric Baily, Mike Schmitz)

The utility also earned a 1<sup>st</sup> place award for Safety Excellence in the category for utilities with 15,000 – 29,999 worker-hours of annual worker exposure.

Entrants were placed in categories according to their number of worker-hours and ranked based on the most incident-free records during 2018. The incidence rate, used to judge entries, is based on the number of work-related reportable injuries or illnesses and the number of worker-hours during 2018, as defined by the Occupational Safety and Health Administration (OSHA).
