

NEW SERVICE ON YOUR UTILITY BILL

The City of Independence recently established a **Stormwater Management Utility** to manage, protect and control the use and enhancement of stormwater management systems and facilities for our community.

Beginning this month, the new stormwater service charges will be included on your monthly Independence Light & Power services bill. These payments support the City's stormwater drainage and flood protection systems, which provide for the collection, treatment and disposal of stormwater, surface water and groundwater – protecting the health, safety and welfare of our residents, community and its natural surroundings.

MORE INFORMATION ON STORMWATER RATES AND RATE APPEALS CAN BE FOUND ON THE CITY OF INDEPENDENCE'S WEBSITE:
